

Implement a program that demonstrates the concepts of class and objects

```
1}  
  
class Rectangle{  
    int length;  
    int width;  
    void insert(int l, int w){  
        length=l;  
        width=w;  
    }  
    void calculateArea(){System.out.println(length*width);}  
}  
  
class TestRectangle1{  
    public static void main(String args[]){  
        Rectangle r1=new Rectangle();  
        Rectangle r2=new Rectangle();  
        r1.insert(11,5);  
        r2.insert(3,15);  
        r1.calculateArea();  
        r2.calculateArea();  
    }  
}
```

}

```
